- 1) Dakota Micro offers an adaptor cable that allows users to input up to 3 Dakota Micro cameras into the John Deere GreenStar 3 2630 Monitor.
- 2) This adaptor is available for *EITHER* AgCam or OverView Cameras. **NOTE: AgCam and OverView cameras feature different connectors so choose the appropriate adaptor for your camera choice.**
- 3) This adaptor requires the user to input independent power from the John Deere power bar.
- 4) This adaptor cable works **ONLY** with the John Deere 2630 GreenStar 3 Monitor (GreenStar 2 monitors are NOT video capable.)
- 5) The length of this adaptor cable is 133"

- 6) The John Deere GreenStar 3 2630 looks like this:

Monitor Front

Monitor Back

These JD3C adaptors are 133" long, and look like this:

1. Video output plug for back of 2630 monitor (Indicated by red arrow above on "monitor back" photo)
2. Power Input Plug (plugs into JD power bar)
3. Video 1 / Camera input 1
4. Video 2 / Camera input 2
5. Video 3 / Camera input 3

- 7) **The DMOV-JD3-C1 Kit is available for OverView ONLY WITH an OverView camera** and a 20 meter power/video cable. PN for this kit is: DMOV-JD3-C1. Aside from having the 4-pin OverView connectors on the camera input side (1 above) the adaptor functions the same way.
- 8) As with all our other adaptor cables, warranty on this item is 1 year.
- 9) This item will be available to all customers/dealers/OEMs, Kit information is as follows:
